

ANGELA ROSE MARIE BRAUER

1901 N Ranch Dr, Tucson, AZ ♦ C: (520) 954-4001 ♦ arbrauer@asu.edu

-PROFESSIONAL SUMMARY-

While working my first job at Saguaro National Park I acquired many valuable skills and strengths. I learned how to use trail tools, properly maintain hiking trails, and also learned a great deal about my natural environment and the need to protect it. I also gained important teamwork skills and learned to communicate with my teammates in a respectful and caring manner. At my next employment opportunity, Fresh Vitamins, I learned about basic vitamins, supplements, herbs, sports nutrition, body care, and natural healthy foods. At Fresh Vitamins I learned the importance of always putting the customer first, actively listening, and serving their needs to the best of my ability. While employed here, I also learned how to promptly inventory, price, stock, and organize products. Currently, I work for Eric's Flower Market, which is a local flower shop in downtown Tucson. I pick up and deliver shipments of flowers for Eric's Flower Market. I have learned to identify many different species of flowers and plants. It is very rewarding for me working with flowers and being able to bring joy into other people's lives. Additionally, I work as an online teacher aide for Northern Arizona University. I help students to learn and grow their knowledge of Art History.

-WORK HISTORY-

Trail Maintenance, 06/2017 to 07/2017

Department of Interior: Saguaro National Park - Tucson, Arizona

During the Summer months, some National Parks hire on extra staff to help with conservation work, environmental education and outdoor restoration. I was a part of the YCC (Youth Conservation Corps) in the Department of the Interior. We traveled around to different National Parks in other states such as New Mexico in the span of two months. While working with the YCC, I helped to restore hiking trails, clean up campgrounds, and was able to gain valuable knowledge about my environment. In this job, I was additionally tasked with making a video to demonstrate all that we accomplished during the summer. This video was sent to Washington DC, in order to show the work that we did and for the Park to receive proper funding for next year. It was great to be able to help support the process of acquiring the funds for the next batch of YCC recruits. My job was only temporary, after the work that needed to be done was completed the YCC program ended. The memories will last a lifetime and I am grateful for my time working here.

Sales Representative/ Cashier, 09/2017 to 12/2017

Fresh Vitamins - Tucson, AZ

While working at Fresh Vitamins I learned valuable customer service skills, along with a basic knowledge of vitamins, supplements, herbs, sports nutrition, body care and natural foods. After a few months of working for the company, my co-workers and I were notified that all retail divisions of Fresh Vitamins would be closing. Up until the end of 2017, I helped with the process of liquidating the company, this meant closing, cleaning, inventorying, and moving products out of the store. I am thankful for the valuable health and wellness education I got while working here, I still use what I learned daily and I try to help others with natural health remedies as well.

Delivery Driver, 02/2018 - Present

Eric's Flower Market - Tucson, AZ

I first started working at Eric's Flower Market in 2018 as an extra delivery driver working during the busy Valentines week. The work was very fun and rewarding for me and I love to make people smile. Soon after I started working at the shop, the business downsized and changed to a smaller, singular location. I was asked to stay on board and continue helping the flower shop, which I was happy to do. I have learned so much about flowers and plants during my work,

which I am passionate about. I still work there now and I really enjoy it. I have great relationships with my co-workers and it is a wonderful place to be.

Teacher Aide, 12/2023 - 12/2024

Northern Arizona University - Flagstaff, AZ

I came across this position thanks to the help and guidance of my knowledgeable professors who supported me in becoming a part of the NAU team. I am an online teacher aide for an art course at NAU, called ARH141: Western art to 1400. For this position, I grade assignments, give the students feedback, and answer any questions they have along the way. I have engaged a great deal with the students and it is very rewarding to put my education to the test and help others to learn and grasp new concepts. I have been honored to be involved with the NAU faculty community and it is amazing to be able to work together with some of the professors who once taught me. Working in this position for a year has helped me to broaden my perspective and knowledge of art even more so, I am very grateful for the opportunity of having this position.

Data Annotation Specialist 10/2025 - Present

Verita AI - Pittsburgh, CA

In my role as a Human Data Specialist, I contribute to AI model development by annotating, labeling, and reviewing data across multiple domains, including language, vision, audio, and video. I ensure data accuracy and consistency by following detailed project guidelines and providing quality feedback. Working remotely and asynchronously, I collaborate with a distributed team while managing tasks independently. This position has strengthened my attention to detail, adaptability, and communication skills, and provided valuable hands-on experience with AI training data and human-in-the-loop processes.

Model Validation Expert 10/2025 - Present

Handshake AI - San Francisco, CA

I contribute to AI research initiatives by developing domain-specific prompts and evaluating Large Language Model (LLM) responses. I work independently in an asynchronous, remote environment and apply my academic knowledge, reasoning skills, and strong attention to detail to improve model performance across various fields. I also try to challenge and stump AI with advanced math problems. I follow detailed guidelines accurately, collaborate virtually with leading AI research labs, and continuously build new skills through short-term AI training projects.

Data Analyst 12/2025 - Present

Outlier AI - Oakland, CA

I work with Outlier AI, a Scale AI platform, providing human feedback to help train and refine generative AI models. My role involves evaluating AI outputs, generating high-quality training data, and applying critical analysis to improve model accuracy, safety, and reliability across diverse projects.

Content Creator: YouTube LearnSkillsDaily 03/2026 - Present

Bomberry Productions - Santa Clara, CA

I work as a video and audio course creator for the YouTube channel LearnSkillsDaily. I make videos on how to use and utilize software such as Google Docs and PowerPoint and Academic Presentations in PowerPoint. My focus is on creating professional, strong content that helps empower viewers to create their own professional work. The goal of the channel is free and accessible education worldwide.

AI Training Expert 03/2026 - Present

Micro1 - Palo Alto, CA

I help train AI models using domain expertise in arts, health, education and culture. I contribute expert knowledge to improve AI model reasoning in the humanities and arts domain. Overall, working on AI models to support the development of next-generation AI systems through expert data annotation, editing, research and evaluation skills.

Unique Content Creator, 03/2026 - Present

Waffle Video AI - Los Angeles, CA

This is an AI company I currently work for. I create unique video content that is needed in order to improve robotics development, synthetic virtual reality development, generative AI development and computer vision models. My job is to use my unique perspective and skills to high-quality data that helps improve models not just quickly but efficiently! Briefly, I will explain the name of the company, a waffle is a dataset, this is something AI is very hungry for and I am "feeding" the AI this content. These are the values of the company, they want to create the largest ethically owned video dataset in the world and train a generative AI that not only understands the visual world but reflects human values. I'm very excited to be involved with any company that is also contributing directly to robotics development.

Independent Contractor 2026 - Present

Mercor - San Francisco, CA

I provide expertise in a number of different domains, including the arts to improve models for a top AI lab. It is great to be able to use my skills to be able to help shape and improve models of the future in terms of AI use and utilization.

Manager: Tik Tok 2026 - Present

Reign Legion - International, remote

Managed relationships with content creators across a global creator network, providing guidance, support, and onboarding assistance. Served as a primary point of contact for creators, helping them understand opportunities, maximize platform growth, and achieve their content goals. Facilitated communication between creators and the network, recruited new talent, and fostered a positive, collaborative environment focused on creator success, audience growth, and long-term professional development.

Freelance Tutoring and Mentorship 2020 - Present

Tucson AZ - In person and Remote

As a freelance college-level mentor and tutor, I support students in achieving academic success through personalized guidance and structured learning strategies. I assist with writing, research, and critical analysis across the humanities

and social sciences, helping students strengthen their academic skills and confidence. My mentorship emphasizes independent thinking, time management, and academic integrity, helping with access to job opportunities and preparing students to excel in higher education and beyond.

Expert AI Consultant 2025 - Present

International - In-person and Remote

Serves as an Expert AI Consultant working with businesses and organizations across multiple countries to help them effectively integrate artificial intelligence into their operations. Provided strategic guidance on AI adoption, workflow automation, content creation, data analysis, and digital transformation initiatives. Assisted clients in identifying opportunities to improve efficiency, productivity, and decision-making through the use of AI-powered tools and technologies. Conducted research on emerging AI trends, developed customized solutions tailored to business needs, and trained teams on best practices for utilizing artificial intelligence responsibly and effectively. This helped to implement innovative AI strategies that enhanced operational performance, supported business growth, and improved overall organizational outcomes.

Independent Executive Contractor as an AI Expert Consultant 2026 -Present

WWS Inc. - New Jersey

I consult and manage AI training for International AI-Driven, Human-Led, comprehensive, wellbeing and performance platforms. I maintain AI integrity and efficiency as the platform and application grow rapidly to serve individuals and employees globally.

-EDUCATION-

High School Diploma: 2017

Primavera Online High School - Chandler, AZ

Primavera, is the leader in online education in the state of Arizona. Primavera provided me with a truly unique and enjoyable alternative to the traditional high school experience. Primavera was able to provide me with a personalized, rigorous education. I was consistently on the honor roll.

Associate of Arts Degree - Liberal Arts: 2021

Pima Community College- Tucson, AZ

At Pima Community College, I pursued my academic curiosities, majoring in Liberal Arts. I learned many different topics and explored a diversity of perspectives, including two years of American Sign Language, and every Astronomy and Art course offered by Pima, amplifying my love of learning. I maintained a GPA of 3.8-4.0 or higher. I advanced my confidence in myself and my academic abilities via the education I received at Pima. I learned to love to learn, resulting in my consistent inclusion on the Dean's List, and my membership in the Phi Theta Kappa Honors society.

Bachelor of Arts Degree: Interdisciplinary Studies- Humanities: 2025

Northern Arizona University- Flagstaff, AZ

I attended Northern Arizona University to earn my Bachelor in Interdisciplinary Studies- Humanities. I'm so glad I found this degree program for transfer students. I have already completed over 90 credits of the 120 needed for my Bachelors degree. I loved the courses and Instructors at Northern Arizona University, helping me explore topics like art, technology, film, religion, literature, and the environment as well. I had an emphasis on the study of Art History. I have been honored to be the recipient of multiple scholarships at Northern Arizona University, including the Lois Kellogg

Duncan Scholarship and the Dennis H. Atkin and Family Humanities Scholarship. Additionally, I am a McKenzie Fellow, and I received the McKenzie Endowment for Democracy for my work on art history which I presented at the Undergraduate Research Symposium at Northern Arizona University. In May '25, I graduated Magna Cum Laude and I am enthusiastic about the continuation of my education.

Master of Liberal Arts Degree: 2025 - present

Arizona State University - Phoenix, AZ

I am currently pursuing advanced interdisciplinary education in the Integrative Sciences and Arts department with a focus on the humanities, cultural studies, and educational leadership. Coursework emphasizes critical thinking, research, and the application of diverse academic perspectives to real-world challenges in education and community development. My studies also include a high level focus on AI and coding.
